**Commissioner for Patents**

For clarity of the record, the examiner notes that the comments regarding the statement of reasons for allowance, submitted by the applicant on 8/5/2004, are substantially correct. The examiner's statement of reasons for allowance included a statement intended to repeat instant claim 34, however two limitations were not updated with regard to the applicant's amendments of 10/14/2003 and 4/14/2004. In the reasons for allowance, the first solvent component should read, "a first solvent component with a sulfur solubility greater than or equal to 20 mM." In addition, in the reasons for allowance, the second solvent component should read, "a second solvent component with a sulfur solubility less than 20 mM." The examiner regrets these inaccuracies in the reasons for allowance and notes that the statement should be consistent with claim 34.

The reasons for allowance for claims 13, 35, 37 and 38 are noted in the office action of 1/15/2004 indicating allowable subject matter and in the Notice of Allowance.
